

We are looking for new team members to join us in our journey to redefine healthcare with regenerative biology.

- Position overview: Title: Project Support
- Department: Research & Development
- Reporting To: Chief Scientific Officer (C.S.O.)

Qualifications:

- M.Sc. in Biological Sciences, Chemistry, Bio-Technology or related field.
- Research lab experience is a plus.
- Strong organizational skills and attention to detail.
- Proficiency in data analysis tools and lab software.
- Excellent written and verbal communication for team collaboration.
- Adaptability to thrive in a fast-paced startup environment.
- Knowledge of lab safety and regulatory standards is advantageous.

Responsibilities:

- Coordinate and track research projects to meet timelines and objectives.
- Support lab operations, including data collection, analysis, and documentation.
- Prepare reports, presentations, and summaries for the C.S.O. and stakeholders.
- Collaborate with R&D teams to ensure project deliverables are achieved.
- Manage lab supplies, equipment, and inventory with precision.
- Assist in developing and refining experimental protocols.
- Ensure compliance with safety standards and regulatory requirements.
- Handle administrative tasks, such as scheduling and project documentation.

Salary: Competitive and Negotiable
